Summary

AI & Data professional with expertise in **Machine Learning, Data Analytics, Generative AI, and Data Engineering**. Builds scalable data-driven systems, ML pipelines, and intelligent applications using **Python** and **SQL**. **IEEE-published researcher**, strong in **DSA** and software engineering fundamentals, with a proven ability to transform complex data challenges into practical business solutions. Seeking opportunities to drive innovation across **AI, ML Engineering, Data Science, Analytics, and Intelligent Automation**.

Education

Master of Computer Applications (MCA) — CGPA: **8.48**

Sept 2024 – Present

Narula Institute of Technology, MAKAUT, Kolkata

Bachelor of Computer Applications (BCA) — CGPA: **8.43**

Sept 2021 – Aug 2024

Maulana Abul Kalam Azad University of Technology, Nadia, West Bengal

Projects

Autonomous AI-Driven Business Intelligence Analyst

Mar 2026 – Present

Multi-Agent System · Schema-Aware RAG · NLP-to-SQL · Generative AI 🔗 [Live Demo](#)

- Architected a **multi-agent BI system** converting natural language to validated SQL via **schema-aware RAG**, enabling non-technical stakeholders to query live databases with minimal hallucinations.
- Engineered **Query & Analysis Agents** with a self-healing ETL data layer: automated schema detection, anomaly scoring, and continuous data-quality monitoring across heterogeneous sources.
- Deployed full-stack solution with an interactive **Streamlit** real-time dashboard; Docker containerisation is the planned next scaling milestone.
- *Stack: Python, LangChain, OpenAI API, SQLite, Streamlit, Pandas, RAG*

Customer Churn & Revenue Risk Prediction Pipeline

May – Jul 2025

Machine Learning · XGBoost · Power BI (DAX)

- Engineered predictive pipeline (XGBoost, Scikit-learn) on 7,000+ records; uncovered drivers of a 27% annual churn rate and surfaced **Rs. 50 L+ in at-risk revenue** through deep-dive EDA.
- Applied **SMOTE** for class imbalance correction; achieved **80% model accuracy** and delivered interactive **Power BI** executive dashboard with DAX KPIs for real-time churn monitoring.
- *Stack: Python, XGBoost, Scikit-learn, SMOTE, Pandas, Power BI (DAX), Matplotlib, Seaborn*

Research & Publication

Privacy-Enhanced Federated Learning for Distributed Systems

International Conference on Signal Analysis for Smart Systems (ICASS) — IEEE · Microsoft CMT 🔗 ieeexplore.ieee.org/document/11479992

- **Selected for Oral Presentation** via Microsoft CMT; integrates Federated Learning with Differential Privacy to enable privacy-preserving distributed model training — directly relevant to enterprise-scale AI deployment.

Technical Skills

Languages	Python, SQL, Java
ML / AI	XGBoost, Random Forest, Federated Learning, Differential Privacy, LangChain, RAG, Multi-Agent Systems
Data & Viz	Excel, Pandas, Scikit-learn, Power BI (DAX), Matplotlib, Seaborn, Streamlit
Databases	MySQL, SQLite, Oracle
Tools	Git, VS Code, Docker (planned), Jupyter
Concepts	DSA, OOP, DBMS, Computer Networks, ETL Design, Agile, SDLC
Keywords	Data Pipelines, Predictive Modelling, NLP, REST APIs, Cloud AI, Prompt Engineering, Data Quality

Certifications

- **Data Analyst Bootcamp** — Udemy, 2026
- **Oracle Cloud Infrastructure (OCI) Certified Generative AI Professional** — Oracle, 2025
- **Data Science Masters 2.0** — PW Skills, 2025
- **Computer Networks & Internet Protocol** — NPTEL / IIT Kharagpur, 2025

Achievements & Social Impact

- **IEEE Oral Presentation** (Microsoft CMT) — research selected at international conference; demonstrates ability to communicate complex technical concepts to expert audiences.
- **120+ DSA problems** solved on [LeetCode](#) 🔗 & [GeeksForGeeks](#) 🔗 — covering arrays, trees, graphs, and dynamic programming; strong programming assessment readiness.
- **Lead Volunteer, Hat Baralei Bondhu** — Executed **Mock Madhyamik Examination** for 60+ underprivileged students; managed **winter blanket distribution, food & clothing drives** at brick kilns, and **community tree plantation** drives — demonstrating leadership, empathy, and social execution.
